
Ride On Trowels CRTEK Series

Application:

RIDE-ON POWER TROWELS FROM FLEXTOOL BRING INNOVATION TO THE CONCRETE INDUSTRY

The TEKVIBE Ride-On Power Trowel by TEKMEANS Construction Supplies has created excitement amongst the concrete industry. CRTEK900 Ride-On Power Trowel is easy to operate and highly productive in floating and finishing large concrete slabs and super flat floors.

Powered by an electric start v twin 35hp motor, CRTEK900 produces power and torque to finish large slabs in a shorter amount of time. Engineered to withstand the complex demands working with concrete, TEKVIBE products are built to last.

Features:

- » Twin stick, multi-directional steering system provides precision control and full maneuverability
- » Dual mode non overlapping blades provide a consistently smooth finish while clip-on float discs or disc pan floats can be attached for superior float operations
- » Precision machined, tight tolerance spider plate assemblies provide exceptional balance and long life
- » High speed for superior finishing
- » Heavy duty gearboxes for long life and low maintenance
- » Flip-up end rings facilitate efficient blade changes.
- » Flip-up seat reveals a sturdy lifting bale for ease of transport and to facilitate engine maintenance
- » Adjustable operator's seat for greater comfort
- » Standard light kit to improve visibility in poorly lit conditions

GASOLINE RIDE ON TROWELS

MODEL

CRTEK900/836C

WEIGHT

400KG

ENGINE	HONDA GX690
ROTATION SPEED	75-150R/MIN
QTY OF BLADE	8 PCS
BLADE SIZE	350*150*2 MM
DIAMETER OF FINISH DISC	960/960MM
WORKING DIA	1560 MM
POWER	24 HP
CERTIFICATION	2006/42/EC - 2006/95/EC / ISO 9001:2008
