
Emergency Rescue Cage

TEKLIFT Lifting slings offer a wide range of emergency man riding Baskets for use with Forklift Trucks and Cranes. Man riding Baskets are a safe way of transporting personnel to restricted areas. We offer a range of access platforms to suit all environments. Available as 1 man, 2 man, 4 man, 6 man & 8 man capacities, in material options of Aluminum, Steel & Stainless-Steel Man-Riding Baskets.

Rescue cages are also available; these are designed for the safe evacuation of personnel from restricted access areas, suitable for crane transportation or forks. Rescue Cages come complete with stretcher that can be secured to the basket ensuring the safe rescue & extraction
