
Pneumatic 11 Head Floor Scabbler SH Series

TEKVIBE TEK-SH11 is designed for thick floor coating removal, containment & concrete surface preparation

TEKVIBE TEK-SH11 minimizes substrate damage which prevents damaging water ingress which may freeze & cause cracking. This concrete floor scabbler is capable of removing concrete up to 1/4 inch in a single pass which makes it perfect for the removal of radioactive & PCB contaminated concrete. Cruciform heads (optional) are available to use for material reduction and a smoother finish.

SPECIFICATIONS

	TEK-SH11
Type	Pneumatic
Air Consumption(CFM)	55
Blows per Min(BPM)	2200X11
Length(MM)	813
Working Width(MM)	250
Working Pressure(Bar/PSI)	6/90
Air Hose(MM)	19
Weight(kg)	70
