
Diesel Air Compressors, Diesel screw compressor, Towable Air Compressor, Tow-Behind Portable Air Compressors

Gas Type: Air

Power Source: Diesel

Working Pressure: 0.7-1.7 MPa

Dis.temperature(°C): ?100

Air oil content(PPM)??5

Power: 33kw – 176kw

speed(RPM): 1800,2000,2100,2300

Driven method: Direct driven

Weight: 1270-3000kg

Warranty: 2 years

Certification: CE/ASME/ISO

Color: Optional&customization

Local Service Location: Philippines, Mexico, Russia

Features of Sollant Portable Diesel Air Compressor:

1. Main engine:

The main engine and the diesel engine are directly connected through a high elastic coupling with the large diameter rotor design of the third generation 5:6, and there is no increasing gear in the middle. The speed of the main engine is the same as that of the diesel engine and the transmission effects achieved a Higher rate, better reliability, and longer life.

2. Diesel engine:

The choice of domestic and foreign famous brand diesel engines such as Cummins and yuchai meets the national II emission standards, with strong power and low fuel consumption.

3. The air volume control system is simple and reliable, according to the size of the air consumption, with an air intake of 0~100% automatic adjustment. At the same time, automatic adjustment of the diesel engine throttle, maximum diesel saving.
4. Microcomputer intelligent monitoring air compressor exhaust pressure, exhaust temperature, diesel engine speed, oil pressure, water temperature, oil tank level, and other operating parameters, with automatic alarm and shutdown protection function.
5. Multi-stage air filter, suitable for dust environment; Multistage fuel filter, suitable for domestic oil quality status; Super large oil-water cooler, suitable for high temperature, especially high altitude, and other harsh environment.
6. Humanized design, needs to maintain the parts within the range of maintenance, maintenance of air filter, oil filter, fuel tank, battery, and oil cooler, easy and convenient, reduce the downtime.
7. Easy to move, in bad terrain conditions can still move flexibly. Each compressor is equipped with a lifting ring for safe and convenient lifting and transportation.

Advantages of Sollant Portable Diesel Air Compressor:

1. Higher rate, better reliability, longer life.
2. With strong power and low fuel consumption
3. The air volume control system is simple and reliable
4. Microcomputer intelligent monitoring air compressor exhaust pressure
5. Multi-stage air filter, suitable for dust environment
6. Humanized design
7. Easy to move
