TEK-DDH with displacement of 306cc, HL178FA delivers a maximum 6.0hp power output. Efficient air cleaner system ensures that your equipment function at their peak performance when needed.

Direct injection combustion brings better fuel economic. Our engine are compact in structure and small in size. On top of that, our diesel engine can be produced with multiple PTO shafts, suitable for various machines and equipment. Optional electric start / oil bath air cleaner / Italian type muffler.

Performance measured after 30 hours running-in, with air cleaner and exhaust silencer.
