
Plate compactor TEK PL/DL Series

heavy duty vibrating plate used for quick and reliable compaction of sand, gravel, hardcore, paving and road surfacing. Ideal for general site use as well as DIY preparation of patios and driveways. A rubber base plate is available for block paving work.

Ideal for earth and asphalt compaction

Low hand arm vibration level

Rubber base plate available for block paving work

HAUC approved units available

Belt adjustment without removing the covers

Heavy-duty long-life bearings

Angled leading and trailing edges to the plate

Lifting handles fitted for easier manual handling

SPECIFICATIONS

	TEK100-PL	TEK100-PH	TEK120-DL
Power	Petrol	Petrol	Diesel
Engine	Loncin G200F	Honda GX160	LCD170F-D230F
Engine Power(Hp/Kw)	4.8/3.5	4.8/3.5	6.5/4.8
Vibration(VPM)	5000	6500	7000
Operating Width(MM)	420X550	420X550	420X550
Impact Force	12 kN	12 kN	16 kN
Weight	100kg	95kg	120kg
Static Pressure(Kg/m2)	410	420	440
Noise Level(db)	96	96	108
Engine Type	Forced Air -Cooled, 4 -Stroke Gasoline Engine
