
Power Float Machine TEK Series

Trowels feature high quality finishing plus triple protection. Designed and built with the most advanced technology, H-Power's walk-behind trowels offer high quality concrete finishing plus added operator safety. The patent-pending gearbox brake, gyroscopic safety sensor and engine speed limiter provide triple protection for the operator. This unique system minimizes a runaway handle situation and meets worldwide safety requirements.

Features:

- Advanced gear drive system, which has great breakthrough in the improvement of general performance.
- Durable gearboxes guarantee the good performance.
- Foldable handle design, easy for storage and transportation.
- Low in noise and reliable in performance.
- Adopt world famous brand gasoline engine, high quality and durable.
- Automatic stop system for working safety.

GASOLINE POWER TROWEL

MODEL	TEK900V
WEIGHT	85KG
DIMENSION	1000*1000*750MM
ROTATION SPEED	60-120R/MIN
QTY OF BLADE	4PCS
BLADE SIZE	350*150*2 MM
DIAMETER OF FINISH DISC	800/900MM
ENGINE MODEL	ROBIN/HONDA GX160/KOHLER CH260
POWER	5.5HP
CERTIFICATION	2006/42/EC - 2006/95/EC / ISO 9001:2008
